

Memo: To all Bryston Customers

Subject: BCD-1 Review in hi-fi+ Magazine

January 2008

Hi All,

Just received another OUTSTANDING review on our Bryston BCD-1 CD player in the latest issue of **hi-fi+ Magazine** in England by Alan Sircom.

Please see below the conclusion of the review.

“Ultimately if this (Bryston) CD Player doesn’t stir your blood, you should get checked over for anemia. The Bryston BCD-1 is never going to appeal to those who like their music slightly softened and beautifully presented, but if you love music for the experience and use the words ‘**soul**’, ‘**feel**’ or ‘**passion**’ when talking about musicoh boy!”

James
